

Uxbridge/Danvers Reviews & State Code/General Laws Applicable to Flammable/Combustible Liquids Permitting and Licensing Requirements

The Department of Fire Services and the Department of Public Safety will present a number of training sessions targeted to fire officials, building officials, town/city clerks, and license granting authorities. The training will include a brief review of the Danvers Explosion and Uxbridge Mill Fire Code Compliance reports. The training will include information for licensing authorities reviewing the local fire department permit process versus the land license process. Additional discussion on the original license process, amendment process, revocation process and the need for building evaluation reports will also be discussed.
